

George Hildick-Smith

First Class Mathematics graduate (84%, Durham) and Oxford MMSC graduate (Distinction), with a strong quantitative and computational foundation and hands-on programming skills in Python, R, Java, and SQL. Focused on applying mathematical modelling and rigorous problem-solving to real-world, data-driven problems. Experienced in building automated software tools and data analysis systems.

Education

Masters in Mathematical Modelling and Scientific Computing (MMSC)

10/2025–09/2026*University of Oxford: Corpus Christi College**Oxford—OX1 4JF*

- Distinction overall, with written components averaging 84% and a weighted average mark of 75%.
- Awarded an industrially funded scholarship by the Mathematical Institute for exceptional academic merit.
- President of Corpus Christi College Running Club (2026)
- Member of Keble College Badminton Team (2026)

Bachelor of Science: Mathematics (G100)

09/2022–07/2025*Durham University: Hatfield College**Durham—DH1 3RQ*

- First Class Honours degree with an average of 84%
- Awarded the [Baxter prize](#)(2023) and named College Scholar (2023)(2024)
- Captain of Hatfield Badminton Men's team (2023–2025)

A-Levels

09/2020–07/2022*Brighton Hove And Sussex Sixth Form College**Hove—BNH*

- Mathematics, Further Mathematics, Physics, Computer Science — A* in all

GCSEs & AS-Level

09/2015–07/2020*Warden Park Secondary Academy**Haywards Heath—WSX*

- 9s — Mathematics, Further Mathematics, Physics, Computer Science, Finance, Biology, Chemistry, Graphics, Geography
- 7s — Spanish, English Literature, English Language; AS Computer Science — A

Work History

Audit Internship

05/2024–07/2024*PricewaterhouseCoopers**Guernsey—GY1 4ND*

- Independently designed and built a software tool to automate account balance verification and generate detailed summary reports, eliminating substantial manual work and improving accuracy across all future engagements.
- Achieved two ACCA qualifications in Financial Accounting and Management Accounting during the internship.
- Utilised Excel extensively for data analysis and reporting, contributing to accurate and timely audit deliverables.

Online Tutor

02/2023–Current*MyTutor**Online*

- Tutored 10+ students across GCSE, A-level and university level in Mathematics, Physics, Computer Science and programming, consistently supporting measurable grade improvements.
- Designed tailored lesson programmes for each student, drawing on a broad subject knowledge base to connect material to real-world applications.
- Built strong rapport with students and parents; adapted teaching approaches to individual learning styles using computational tools to make abstract ideas accessible.

Skills

Mathematical Modelling	Quantitative Thinking	Programming: Python, R, Java, SQL
Data Analysis	Problem Solving	Communication
